IF YOU WOULD HAVE FRIENDS.

Don't Annoy People by Comparisons That Are Humiliating.

When you start in to say plain things to anybody be sure to use plain words and not idioms. Never use figures of speech when rebuking others, for in time your helpful rebuke may be forgotten, but the tang of the biting figure will never be forgotten, and perhaps not forgiven. For example, you might want to tell a conservative person he was not up to the times in some particular matter, but don't call him a fossil—he would never forget it. There is a good deal in a name. Never call a person a crank—crank is a figure of speech. Simply say "You have an odd way of looking at things." This will please, as it suggests individuality, and not eccentricity or worse. Picturesque language is only interesting when applied to things. People don't like it when applied personally. People don't like to be placed in a comical and spectacular light, and that's where picturesque language is apt to place them. Whatever a person's characteristics may be don't call him a mule, or her a zany. The clearer the definition the deeper the resentment. Better not call people names, anyway—it only arouses a lot of feeling which is slow to simmer down. Nothing annoys a person more than to be called some ridiculous name—it doesn't seem to set well. In other words, use plain verbs, and cut out the nouns and adjectives, and you will not make many enemies.—Newark News.

Real Meaning of "Cravat."

"Cravat," or rather the French "cravate," means simply Croatian; Hume, the historian, for instance, speaks of certain troops as "Cravates and Tartars, Hussards and Cossacs."

But the French borrowed the word for the new neckwear introduced among them in imitation of the linen scarfs worn by the Croatian mercenaries whom they saw during the Thirty Years' war. In English "cravat" has ranged in meaning from a tie to a comforter and has varied also in pronunciation, both Pope and Dryden accenting the word upon the first syllable.

English Money Coined in Canada.

English gold sovereigns were coined on the North American continent for the first time in 1908, when a limited number of these pieces were struck at the newly-opened Canadian mint at Ottawa. Permission to strike these coins, it is said, was given by the British authorities as a special privilege to mark the beginning of operations and extended only up to December 31, 1908, after which the mint was to confine itself to making silver and bronze coins.
